

# The Discovery School

## Accessibility Plan 2022 - 2025

## Section 1: Vision statement

### Purpose of the Plan

The purpose of this plan is to show how The Discovery School intends, over time, to increase the accessibility of our school for disabled pupils. The Discovery School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs.

### Definition of Disability

The Disability Discrimination act (DDA) defines a disabled person as someone who has:

***“A physical or mental impairment which has a substantial and long term adverse effect on his or her ability to carry out normal day-to-day activities”***

- “Physical impairment” includes sensory impairment.
- “Mental impairment” includes learning difficulties and an impairment resulting from or consisting of a mental illness.
- “Substantial” means more than minor or trivial.
- “Long term” is defined as 12 months or more.
- This definition includes a wide range of impairments such as dyslexia, autism, speech & language impairments and attention deficit hyperactive disorder. These will only be defined as a disability if the effect on the child’s ability to carry out day to day activities is substantial and long term, as defined above.

### Legal Background

Under the Equality Act 2010 all schools must have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation including the DDA. The effect of the laws is the same as in the past, meaning that ‘Schools cannot lawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation’.

This plan has been drawn up based upon information supplied by the Local Authority, and in conjunction with pupils, parents, staff and governors of the school and will advise other school planning documents.

This Accessibility Plan sets out objectives of our school in increasing access to education for disabled pupils in the three areas, as required by the planning duties in the DDA:

- a) Increasing the extent to which disabled pupils can participate in the school curriculum; which includes teaching and learning and the wider curriculum of the school, such as participation in after school clubs, leisure and cultural activities or school visits;
- b) Improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- c) Improving the delivery to disabled pupils of information, which is provided in writing for pupils who are not disabled

## **Training**

Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

## **Plan Availability:**

The school makes the Accessibility Plan available in the following ways:

- A copy is posted on the school's website
- Paper copies are available from the front office

## **Review and Evaluation:**

It is a requirement that our Accessibility Plan is resourced, implemented, reviewed and revised as necessary and reported on annually. The plan is valid for three years (2022-2025) and is reviewed annually.

## **Complaints procedures:**

Please refer to the School's published Complaints Procedure.
