1. Aims and scope

Here at The Discovery School, we understand the valuable potential that artificial intelligence (AI), including generative AI, holds for schools. For example, it can be used to enhance pedagogical methods, customise learning experiences and progress educational innovation.

We are also aware of the risks posed by AI, including data protection breaches, copyright issues, ethical complications, safeguarding and compliance with wider legal obligations.

Therefore, the aim of this policy is to establish guidelines for the ethical, secure and responsible use of AI technologies across our whole school community.

This policy covers the use of AI tools by school staff, governors and pupils. This includes generative chatbots such as ChatGPT and M365 Copilot. (Please note, this list is not exhaustive - See Appendix 1 for further guidance on approved AI sites and tools).

This policy aims to:

- Support the use of AI to enhance teaching and learning
- Support staff to explore AI solutions to improve efficiency and reduce workload
- Prepare staff, governors and pupils for a future in which AI technology will be an integral part
- Promote equity in education by using AI to address learning gaps and provide personalised support
- Ensure that AI technologies are used ethically and responsibly by all staff, governors and pupils
- Protect the privacy and personal data of staff, governors and pupils in compliance with the UK GDPR

1.1 Definitions

This policy refers to both 'open' and 'closed' generative AI tools. These are defined as follows:

- **Open generative AI tools** are accessible and modifiable by anyone. They may store, share or learn from the information entered into them, including personal or sensitive information
- **Closed generative AI tools** are generally more secure, as external parties cannot access the data you input

2. Legislation

This policy reflects good practice guidelines/recommendations in the following publications:

- [AI regulation white paper](#), published by the Department for Science, Innovation and Technology, and the Office for Artificial Intelligence
- [Generative artificial intelligence \(AI\) and data protection in schools](#), published by the Department for Education (DfE)
- [Keeping Children Safe in Education 2026](#) published by the Department for Education (DfE)

This policy also meets the requirements of the:

- UK General Data Protection Regulation (UK GDPR) – the EU GDPR was incorporated into UK legislation, with some amendments, by The Data Protection, Privacy and Electronic Communications (Amendments etc) (EU Exit) Regulations 2020
- Data Protection Act 2018 (DPA 2018)

3. Regulatory principles

We follow the 5 principles set out in the AI regulation white paper.

REGULATORY PRINCIPLE	WE WILL ...
Safety, security and robustness	• Ensure that AI solutions are secure and safe for users and protect users' data • Ensure we can identify and rectify bias or error • Anticipate threats such as hacking
Appropriate transparency and explain ability	• Be transparent about our use of AI, and make sure we understand the suggestions it makes
Fairness	• Only use AI solutions that are ethically appropriate, equitable and free from prejudice – in particular, we will fully consider any bias relating to small groups and protected characteristics before using AI, monitor bias closely and correct problems where appropriate
Accountability and governance	• Ensure that the Governing Body and staff have clear roles and responsibilities in relation to the monitoring, evaluation, maintenance and use of AI
Contestability and redress	• Make sure that staff are empowered to correct and overrule AI suggestions – decisions should be made by the user of AI, not the technology • Allow and respond appropriately to concerns and complaints where AI may have caused error resulting in adverse consequences or unfair treatment

4. Roles and responsibilities

4.0 AI lead

Our generative AI leads are Tina Gobell, Headteacher, Jenny Oakes, Deputy Headteacher and Jane Wilce- Cordner, Senior Assistant Headteacher (DSLs). They are responsible for the day-to-day leadership, ownership and management of AI use in the school.

4.1 Governing Body

The Governing Body will:

- Take overall responsibility for monitoring this policy and holding the Headteacher to account for its implementation in line with the school's AI strategy
- Ensure the DSLs are appropriately supported to make informed decisions regarding the effective and ethical use of AI in the school
- Adhere to the guidelines below to protect data when using generative AI tools:
 - Use only approved AI tools (see section 5 and appendix 1)
 - Seek advice from the data protection officer / IT / AI leads/Network Manager and the Designated Safeguarding Leads, as appropriate
 - Check whether they are using an open or closed generative AI tool
 - Ensure there is no identifiable information included in what they put into open generative AI tools
 - Acknowledge or reference the use of generative AI in their work
 - Fact-check results to make sure the information is accurate

The designated Governor for AI is Annabel Cornall (Safeguarding Governor)

4.2 Headteacher

The headteacher will:

- Take responsibility for the day-to-day leadership and management of AI use in the school
- Liaise with the Data Protection Officer (DPO) to ensure that the use of AI is in accordance with data protection legislation
- Liaise with the DSLs to ensure that the use of AI is in accordance with Keeping Children Safe in Education and the School's Child Protection Policy
- Ensure that the guidance set out in this policy is followed by all staff
- Review and update this AI policy as appropriate, and at least annually
- Ensure staff are appropriately trained in the effective use and potential risks of AI
- Make sure pupils are taught about the effective use and potential risks of AI

- Sign off on approved uses of AI, or new AI tools, taking into account advice from the Network Manager, DPO, AI leads and DSLs

4.3 Data protection officer (DPO)

The data protection officer (DPO) is responsible for monitoring and advising on our compliance with data protection law, including in relation to the use of AI.

Our DPOs are Adam Halsey and Stacy Williams who are based at Invicta Law and can be contacted at: · E-mail: dpo@invicta.law

4.4 Designated Safeguarding lead (DSL)

The DSL is responsible for monitoring and advising on our compliance with safeguarding requirements including in relation to the use of AI, such as:

- Being aware of new and emerging safeguarding threats posed by AI
- Updating and delivering staff training on AI safeguarding threats
- Responding to safeguarding incidents in line with Keeping Children Safe in Education (KCSIE) and the school's child protection and safeguarding policy
- Understanding the filtering and monitoring systems and processes in place on school devices

The school's Lead DSL is Tina Gobell and is contactable via email at tgobell@discovery.kent.sch.uk

4.5 All staff

As part of our aim to reduce staff workload while improving outcomes for our pupils, we encourage staff to explore opportunities to meet these objectives through the use of approved AI tools. Any use of AI must follow the guidelines set out in this policy.

To protect data when using generative AI tools, staff must:

- Use only approved AI tools (see section 5 and appendix 1)
- Seek advice from the data protection officer / IT / AI leads, as appropriate
- Report safeguarding concerns to the DSLs in line with our school's child protection and safeguarding policy
- Check whether they are using an open or closed generative AI tool
- Ensure there is no identifiable information included in what they put into open generative AI tools
- Acknowledge or reference the use of generative AI in their work, via the school website www.discovery.kent.sch.uk
- Fact-check results to make sure the information is accurate

All staff play a role in ensuring that pupils understand the potential benefits and risks of using AI in their learning. All of our staff have a responsibility to guide pupils in critically evaluating AI-generated information and understanding its limitations.

4.6 Pupils

Pupils must:

- Follow the guidelines set out in section 7 of this policy ('Use of AI by pupils')

5. Staff and governors' use of AI

5.1 Approved use of AI

We are committed to helping staff and governors reduce their workload. Generative AI tools can make certain written tasks quicker and easier to complete, but cannot replace the judgement and knowledge of a human expert.

Whatever tools or resources are used to produce plans, policies or documents, the quality and content of the final document remains the professional responsibility of the person who produced it.

Any member of staff or governor using an AI-generated plan, policy or document should only share the AI-generated content with other members of staff or governors for use if they are confident of the accuracy of the information, as the content remains the professional responsibility of the person who produced it.

Always consider whether AI is the right tool to use. Just because the school has approved its use doesn't mean it will always be appropriate.

5.2 Process for approval

Staff are welcome to suggest new ways of using AI to improve pupil outcomes and reduce workload. Staff should contact the Headteacher to discuss any ideas they may have with regards to using AI, so the Headteacher can take the suggestions forward if they deem it to be a satisfactory new method of working.

The Headteacher is responsible for signing off on approved uses of AI, or new AI tools, taking into account advice from the AI leads the DPO, DSLs and the Network Manager.

5.3 Data protection and privacy

To ensure that personal and sensitive data remains secure, no one will be permitted to enter such data into unauthorised generative AI tools or chatbots.

If personal and/or sensitive data is entered into an unauthorised generative AI tool, The Discovery School will treat this as a data breach and will follow the personal data breach procedure outlined in our UK GDPR and Data Protection Policy. Please also refer to section 10 of this policy.

5.4 Intellectual property

Most generative AI tools use inputs submitted by users to train and refine their models.

Pupils own the intellectual property (IP) rights to original content they create. This is likely to include anything that shows working out or is beyond multiple choice questions.

Pupils' work must not be used by staff to train generative AI models without appropriate consent or exemption to copyright.

Exemptions to copyright are limited – we will seek legal advice if we are unsure as to whether we are acting within the law.

5.5 Bias

We are aware that AI tools can perpetuate existing biases, particularly towards protected characteristics including sex, race and disability. For this reason, critical thought must be applied to all outputs of authorised AI applications. This means fact and sense-checking the output.

We will ensure we can identify and rectify bias or error by training staff in this area through planned professional development.

We also review our use of AI to identify and correct any biases that may arise.

If parents/carers or pupils have any concerns or complaints about potential unfair treatment or other negative outcomes as a consequence of AI use, these will be dealt with through our usual complaints procedure.

5.6 Raising concerns

We encourage staff and governors to speak to the Headteacher in the first instance if they have any concerns about a proposed use of AI, or the use of AI that may have resulted in errors that lead to adverse consequences or unfair treatment.

Safeguarding concerns arising from the use of generative AI must be reported immediately to the DSLs in accordance with our school's Child Protection Policy.

5.7 Ethical and responsible use

We will always:

- Use generative AI tools ethically and responsibly
- Remember the principles set out in our school's Equality Policy when using generative AI tools
- Consider whether the tool has real-time internet access, or access to information up to a certain point in time, as this may impact the accuracy of the output
- Fact and sense-check the output before relying on it

Staff and governors must not:

- Generate content to impersonate, bully or harass another person
- Generate explicit or offensive content
- Input offensive, discriminatory or inappropriate content as a prompt

6. Educating pupils about AI

At The Discovery School, we acknowledge that pupils benefit from a knowledge-rich curriculum that allows them to become well-informed users of technology and understand its impact on society. Strong foundational knowledge will ensure that pupils develop the right skills to make the best use of generative AI.

As a school, through our PSHE and Computing curriculums, children are taught to recognise AI and to develop curiosity about the images, information and text it can generate. They learn how to use digital content safely and responsibly, understand the limitations, reliability and potential bias of generative AI. In addition, they are equipped with essential online safety skills to help protect themselves from harmful or misleading content, including when using AI at home.

7. Use of AI by pupils

We recognise that AI has many potential benefits for supporting pupil learning. However, at present, pupils at The Discovery School do not use AI tools. Following a risk assessment, we believe that, despite robust filtering systems, we cannot fully mitigate the potential risks AI may pose to our pupils.

This position will be reviewed regularly to ensure that pupils remain safe while also ensuring they are not disadvantaged by a lack of access to AI tools.

8. Formal assessments

We will continue to take reasonable steps where applicable to prevent malpractice involving the use of generative AI in assessments.

We will follow the latest guidance published by the Joint Council for Qualifications (JCQ) on AI use in assessments.

9. Staff training

Staff are regularly trained about AI and guidance is given on its use in school. Training is provided from both DSLs and the AI Leads.

Training takes many forms including:

- Staff meetings and briefings around the use and understanding of AI
- Covering AI use in staff training on safe internet use and online safeguarding
- DSLs and AI Leads attending regular training.

10. Referral to our Child Protection Policy and other safeguarding policies

The school is aware that the use of generative AI may in some circumstances lead to safeguarding concerns including, but not limited to:

- Sexual grooming

- Sexual harassment
- Sexual extortion
- Child sexual abuse/exploitation material
- Harmful content
- Harmful advertisements and promotions
- Bullying

Where there are safeguarding concerns arising from the use of generative AI, a report must be made to the DSLs immediately.

Any such incident will be dealt with according to the procedures set out in the School's Child Protection Policy and child protection referral process

11. Breach of this policy

11.1 By staff

Breach of this policy by staff will be dealt with in line with our Staff Code of Conduct.

Where disciplinary action is appropriate, it may be taken whether the breach occurs:

- During or outside of working hours
- On an individual's own device or a school device
- At home, at school or from a remote working location

Staff members will be required to co-operate with any investigation into a suspected breach of this policy. This may involve providing us with access to:

- The generative AI application in question (whether or not it is one authorised by the school)
- Any relevant passwords or login details

You must report any breach of this policy, either by you or by another member of staff, to the Headteacher immediately.

11.2 By governors

Governors found in breach of this policy will be addressed in line with section 11.1 and the Governor Code of Conduct.

11.3 By pupils

Any breach of this policy by a pupil will be dealt with in line with our Behaviour Policy and, if required, our Child Protection Policy.

12. Monitoring and transparency

AI technology, and the benefits, risks and harms related to it, evolves and changes rapidly. Consequently, this policy is a live document that must be kept updated by the DSL team whenever there is a significant change to either AI use by the school or the associated risks of AI usage.

This policy will also be regularly reviewed and updated to align with emerging best practices, technological advancements and changes in regulations.

The policy will be shared with the Governing Body at least annually.

All teaching staff are expected to read and follow this policy. The DSLs and AI Leads are responsible for ensuring that this policy is followed.

Tina Gobell, Jenny Oakes and Jane Wilce -Corder will monitor the effectiveness of AI usage across the school.

Members of the school community will be kept up to date on the use of AI technologies for educational purposes. Feedback from pupils, parents/carers and staff will be considered in the ongoing evaluation and development of AI use in school.

13. Links with other policies

This AI policy is linked to our:

- UK GDPR and Data Protection Policy
- Child Protection Policy
- Behaviour Management Policy
- Staff Code of Conduct
- Marking and Feedback policy
- Acceptable Use Policy
- Equality Policy
- Mobile Phone Policy
- Assessment Policy
- Governor Code of Conduct

Appendix 1: Approved uses of AI tools (table)

Note that open-source AI tools / open AI tools, meaning tools that anyone can access and modify, should only be used for tasks that don't require personal information to be input.

APPROVED AI TOOLS	APPROVED FOR	APPROVED USES
Microsoft Copilot	• Teachers • Governors • Support staff	• Proof checking letters • Job descriptions and adverts • Interview questions • Statements for school reports • Planning tool • Clipart generator • Generic School documents
ChatGPT	• Teachers • Governors • Support staff	• Proof checking letters • Job descriptions and adverts • Interview questions • Statements for school reports • Planning tool • Clipart generator • Generic School documents
Oak Academy AI lesson planner	• Teachers	• Lesson planning
Teachmate	• Teachers	• Lesson planning • Report writing
CHALKIE	• Teachers	• Lesson planning
KeyGPT	• Teachers • Governors • Support staff	• Job descriptions and adverts • Interview questions • Policy writing
CANVA	• Teachers	• Instagram posts • Lesson resourcing • Lesson planning
