Science

Living things and their habitats

Explore and compare the differences between things that are living, dead, and things that have never been alive.

Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other.

Identify and name a variety of plants and animals in their habitats, including microhabitats.

Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.

What makes a hero?

Year 2 — Term 5

Design and Technology

Can I name and sort food into five food groups?

Can I grate and peel?

Can I design, make and evaluate a project?

History

How can I compare two historical figures?

Mary Seacole and Florence Nightingale

Can I compare modern and historic hospitals?

Can I write simple stories and recounts about the past?

Can I draw and label diagrams and write about them?

PSHE

What can help us grow and stay healthy?

What different things help our bodies to be healthy?

How does eating and drinking too much sugar affect our health?

How can I be physically active?

How sunshine helps our bodies to grow?

How to stay safe in the sun.
